PDFlib 8
Licensing Notes

Availability of PDFlib 8

PDFlib 8 licenses are still available after the release of PDFlib 9. The exact availability conditions depend on whether or not the customer has an active support agreement as detailed in the following table:

Customer has...	PDFlib 8 is available until...
...no PDFlib 8 licenses	March 2013
...PDFlib 8 licenses without support	March 2014
...PDFlib 8 licenses with active support	February 2015 (end of lifetime of PDFlib 8)

PDFlib 8 licenses purchased after March 31, 2013 are not eligible for free updates to PDFlib 9 (even with active support).

Products

The PDFlib product family comprises three separate products:

▶ PDFlib includes a variety of functions for generating PDF output.

▶ PDFlib+PDI includes all PDFlib functions, plus the PDF Import Library (PDI) for including existing PDF pages in the generated output. It also includes the pCOS interface for querying PDF objects.

▶ PDFlib Personalization Server (PPS) includes PDFlib+PDI plus functions for automatically filling PDFlib Blocks. A PPS license also covers the PDFlib Block Plugin for creating Blocks interactively with Adobe Acrobat on OS X and Windows.

A detailed feature comparison is available in the product documentation and on our Web site. PDFlib, PDFlib+PDI, and PPS are distributed as a combined binary which is fully functional, but displays a demo stamp across all generated pages unless a valid license key is applied. The pCOS interface for querying PDF objects is contained in the evaluation versions, but it is limited to small documents. According to your order the license key will activate PDFlib, PDFlib+PDI, or PPS.

Value added Tax (VAT)

PDFlib GmbH's invoicing and VAT handling are governed by EU law:

▶ Customers from non-EU countries will not be charged VAT.

▶ Customers from Germany will be charged 19% VAT (MwSt.).

▶ Customers from all other EU countries must provide their VAT identification number to avoid VAT being added to the invoice.

Support

We offer optional support contracts in combination with a new product license or to renew an existing support contract. An active support contract includes the following advantages:

▶ technical support with short response times

▶ all minor (maintenance) and major (functional) updates included

▶ early availability of bug fixes

▶ maintenance releases and technical support available until the end of a product's lifetime

▶ additional licenses can be purchased until the end of the lifetime

For a detailed description of support benefits refer to our General License and Support Conditions which are available on our Web site. The support fee is 20% of the license fee per year.

Support contracts can optionally be renewed automatically every 12 months until the support is expressly terminated by the customer. In order to terminate a support agreement with automatic renewal please inform us one month before the support expires.

Scope of a License

One license covers a single computer running on the selected operating system platform. Development licenses for machines which are not used for production purposes and run under the same operating system are free with each purchase. Redundant (backup) machines do not require a separate license, provided they are never used concurrently with the actual production machines. Groups of load-balancing servers require a license for every server in the group. A license covers all virtual machines (VMs) and logical partitions (LPARs) on a computer.

Operating System Platform

Supplying the name of the target operating system platform is a strict requirement since the license is bound to a specific platform. Refer to the corresponding system requirements document for deployment details. The license is valid for all supported language bindings (programming languages) on the selected platform.

A separate price list is available for IBM zSeries systems.

Volume Discounts

Volume discounts are available for multiple licenses of the same product according to the table below, provided all licenses are ordered with a single combined order. Please contact us for larger numbers of licenses.

number of licenses	discount off the list price
5	10%
10	15%
20	40%

Updates of older Versions

An update changes an older license to a license for a newer version on the same platform, thereby invalidating the old license. A valid license key must be supplied with each update order. Licenses for PDFlib 6 and 7 products can be updated to PDFlib 8 at a reduced license fee. Each license entitles to an update to a version 8 license.

Customers without a support contract can add support when updating to PDFlib 8. In this case the support fee is based on the full license fee of the product (not the reduced update fee).

The discount percentage for updating PDFlib, PDFlib+PDI, or PPS 6 or 7 to version 8 is the same for all combinations.

	Update from		
To	PDFlib 6 or 7	PDFlib+PDI 6 or 7	PPS 6 or 7
PDFlib 8 PDFlib+PDI 8 PPS 8	60% of the target product's list price for all combinations		

Upgrades to a higher Product

An upgrade changes an existing license for a PDFlib 8 product to a license for a more advanced product on the same platform, thereby invalidating the old license. All licenses can be upgraded at a reduced fee. A valid license key must be supplied with each upgrade order. The following table indicates the fees for various upgrade combinations as a percentage of the target product's list price:

	Upgrade from	
To	PDFlib 8	PDFlib+PDI 8
PDFlib+PDI 8	50%	–
PPS 8	70%	35%
